SUMMARY

Aspiring Data Scientist and M.Tech AI & Data Science candidate with hands-on experience in Python, SQL, Machine Learning, Power BI, Tableau, and NLP. Skilled in building predictive models, analyzing large datasets, and creating interactive dashboards to support data-driven decision-making. Passionate about applying AI and analytics to solve real-world business problems.

EDUCATION

- M.Tech Artificial Intelligence and Data Science** *GPA: 7.88* Aug 2025-June 2027
SIES Graduate School of Technology, Nerul
- B.Tech Computer Engineering** *GPA: 7.12* Nov 2021-June 2025
Pillai College of Engineering(Autonomous), New Panvel
- HSC Science** *Percentage: 89%* July 2019-June 2021
St Joseph High School and Junior College, Kalamboli

WORK EXPERIENCE

Junior SME (Subject Matter Expert) Intern Jan 2026-June 2026
Coder Technologies

- Delivered hands-on training in Data Analytics & Science (Excel, SQL, Power BI, Python), enhancing students' practical understanding of data cleaning, visualization, and dashboard development.
- Conducted 100+ candidate & mock interviews, assessing technical and communication skills while mentoring students to enhance job readiness and interview performance.

Python and AI Programming Intern Dec 2024-March 2025
iSec Services Pvt. Ltd

- Architected secure authentication modules for the Vulnscan AI web platform using PHP and MySQL.
- Created modules for Tender Management System with proposal upload, download, and email features.

Internship (Data Analytics and Artificial Intelligence) May 2024-July 2024
Internship Studio

- Completed training in key Machine Learning and AI disciplines, mastering techniques and methodologies.
- Created reports and interactive dashboards to enhance efficiency and speed up data interpretation.

SKILLS

Programming	Python, SQL (MySQL), PHP, C, C++
Python Libraries	Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Technologies	Machine Learning, NLP, Data Science, Artificial Intelligence
Data Visualization	PowerBI, Tableau, Microsoft Excel
Soft Skills	Communication, Problem-Solving, Leadership, Time Management, Adaptability

PROJECTS

- Government Scheme Chatbot using Regional Language (Marathi)**

Aug 2025 - Nov 2025

 - Engineered a bilingual (English, Marathi) NLP chatbot using FAISS and RAG (Qwen 2.5/3B) on a dataset of 3000+ government schemes.
 - Developed an offline Streamlit application delivering structured scheme details (eligibility, benefits, documents), improving accessibility for users.

- Discovering Behavioral Tendencies Using Fine-Grained Sentiment Analysis of Textual Content**

Jan 2024-April 2025

 - Constructed a robust NLP pipeline for text preprocessing and emotion detection (angry, sad, fearful) using tokenization, lemmatization, TF-IDF, and POS tagging.
 - Developed a BiLSTM model with rule-based logic to classify sentiments and analyze behavioral patterns for early mental health intervention.

- Abusive Language Detection in Natural Language Processing**

July 2024-Nov 2024

 - Developed a Flask-based web app for real-time detection and categorization of abusive language using the Toxic Comments Dataset, with NLP preprocessing (tokenization, lemmatization, stopwords removal, TF-IDF).
 - Built a multi-label classification model with OneVsRestClassifier (Logistic Regression) to identify abusive content types, achieving high accuracy, precision, and F1-score.

- 2027 Cricket World Cup Winner Prediction**

July 2024-Nov 2024

 - Leveraged machine learning and data science to predict outcomes for the 2027 Cricket World Cup, focusing on data collection, preprocessing, and analysis.
 - Delivered insights into team performance and match outcomes, highlighting expertise in data handling, model building, and analytical thinking.

- Car Price Prediction System**

Aug 2023-Nov 2023

 - Built a machine learning regression model using Python and Scikit-learn to predict used car prices with high accuracy, enabling data-driven valuation of vehicles.
 - Evaluated regression model using RMSE, MAE, and R² score, ensuring accurate and reliable car price predictions.
